Friday, March 20, 2020 the “Safer At Home Order” was issued.

On a moment’s notice, life changed for everyone. Musicians and entertainers faced the unique challenge of working and creating content in a closed society.

It quickly became clear that continued creativity and audience engagement required a new set of tools. Actor’s became their own editors, musician’s became their own engineers and everyone became a streamer!

Thanks to the pristine quality and simplicity of Apogee microphones, artists, entertainers and content creators were able to keep the show on the road—all from the comfort and safety of their homes!

Here are some of our customers’ stories.

Essentials for Recording at Home

Leslie Odom Jr.

Grammy Award and Tony Award winning actor and singer

Many creatives found themselves booking even more work during their year at home and Leslie was no exception. Best known for his role as “Aaron Burr” in the Broadway musical Hamilton, the expectation to produce high quality content was not overlooked because of world events. In Leslie’s world, the show must go on, so when selecting a microphone for his voice-over work on the animated series Central Park, Apogee HypeMiC was the obvious choice.

Apogee HypeMiC

“We’ve been recording from home and people have been impressed by the quality...so certainly, now, this is an essential—I travel with it!”

– Leslie Odom Jr.

W. Bruce Cameron

#1 New York Times Best Selling author of A Dog's Purpose and A Dog's Journey

Bruce Cameron's heartwarming story about the many incarnations of Bailey didn't come to life behind a conventional writer's desk. He found himself feeling most inspired while riding his bike throughout the beach communities of Los Angeles, dictating the touching journey of man's best friend using ClipMic digital and Apogee's MetaRecorder App (available on the App Store). Since then, ClipMic digital has been Bruce's go-to microphone for dictating his books at home and for Zoom calls.

Grammy Award winning songwriter/producer
(Michael Jackson, Train, Eminem, Kendrick Lamar,
Justin Bieber, Sia and H.E.R.)

"As a producer and songwriter, I love getting the best performance from an artist. Sometimes that happens when you're not in the studio, but you still need a great mic to capture all the emotion of a great vocal take. With built-in analog compression, HypeMiC lets me capture amazing moments in my phone or computer, and also gives me high-quality studio sound wherever we are."

About Apogee

In 1985, Apogee founders developed innovative technology that addressed the brittleness and distortion heard on the new listening medium of the day, compact discs (CDs) making Apogee products ubiquitous in high-end studios all over the world. More than three decades later, Apogee converters, audio interfaces, preamps and FX plugins continue to raise the bar for the audio industry.

With our latest USB and iOS microphone products, Apogee offers powerful and transformative tools to a new audience of content creators in music, streaming, podcasting, vlogging and more.

Watch this video to hear how Hype MiC makes a vocal recording sound radio ready with built-in analog compression.
