

# Xtra

## STAGEBOXES

La serie XTRA nasce dal connubio tra design & funzionalità così caro a Bespeco. Costruita in ABS ultrasensibile con il pannello connettori in metallo verniciato a polveri epossidiche (garantendo sia peso e dimensioni ridotte sia un'alta resistenza meccanica delle connessioni), la serie XTRA ha nel design del suo profilo una comoda e pratica maniglia di trasporto. Le connessioni XLR sono cablate a mano secondo lo schema delle masse a contatto o separate a seconda del modello. Tutti gli XLR hanno il corpo in metallo per garantire maggiore resistenza. La frusta terminale con guaine ad alta resistenza meccanica collegata alla ciabatta è ulteriormente protetta tramite un robusto passacavo in PVC. Tutte le ciabatte della serie XTRA vengono fornite di sacca proteggi-frusta.

*The XTRA series is born with love for design & functionality, typical from Bespeco! Built in extra-strong ABS with epoxy powder finished metal patchplugs panel (guaranteeing both weight and reduced dimensions and high mechanical resistance), the XTRA series has in its exclusive design a comfortable and practical carrying handle. The XLRs are hand-wired according to the standard common shields or isolated shields scheme. To grant an higher durability all XLR are made of metal. The cable snake connected to the stage box is additionally protected by a strong PVC cable entry. All XTRA series stage boxes comes with a heavy-duty nylon fantail bag*

Profilo in ABS dall'esclusivo design italiano provvisto di una comoda e pratica maniglia di trasporto.

*ABS profile featuring the exclusive italian design with the practical carrying handle.*

**CONNESSIONI DA PANNELLO** - Tutte le ciabatte della serie XTRA offrono le connessioni XLR cablate a mano, la frusta collegata alla ciabatta è ulteriormente protetta tramite un robusto passacavo in PVC.

**PANEL MOUNT CONNECTIONS** - All XTRA series stage boxes offer hand-wired XLR connections, the cable snake connected to the stage box is additionally protected by a strong PVC cable entry.

**SACCA PROTEGGI FRUSTA** - Tutte le ciabatte della serie XTRA vengono fornite di sacca proteggi-frusta in nylon con chiusura a doppio anello con fascia di velcro.

**FANTAIL NYLON BAG** - All XTRA series stage boxes comes with a heavy-duty nylon bag with velcro closures to protect cable ends.

Schermi a contatto: L'assemblaggio viene realizzato con cavo a schermi a contatto, secondo standard di collegamento con masse comuni.  
Common Shields: Assembly is made through standard links between common shields.
