LEDI® 10.S
Indoor / Single face

Professional LED clock with tri-color display, robust and stylish combining the best of the technology for an easy installation and operation.

2 YEARS WARRANTY

Time setting

The professional LEDI® clocks can display the same time information, synchronized by a master clock or a time server.
On standalone and pulse version, the time setting is manual.
Display date and time alternately.

Internal time base

The LEDI ® clock has its own temperature compensated TCXO time base which allows an accuracy about 0.1 sec / day between 0° to 40°C in case of synchronization loss.

Security

Backup of time information in case of mains absence, by lithium battery : 10 years .

Specification

Power supply	230 VAC/50-60 Hz 115 VAC/50-60 Hz Low voltage 12, 24 or 48 VDC NTP Version : POE (Power Over Ethernet)
Certification	CE, EN 60950, EN 55022, EN 55024, ROHS.
Maximum consumption	15,04 VA
IP	30
MTBF	56 225 h.
MTTR	Display : 5 min. CPU : 5 min. Power supply : 5 min.
Weight	2,6 kg
Dimension	640x210x62 mm (LxHxD)
Digit height	Hour/minute : 110 mm Seconds : 80 mm
Maximal distance of legibility	Up to 60 meters
Shock resistance	IK9
Operating temperature	-20° to 50°C
Electrical equipment classification	Class 2

Display / LED specifications

Simple row LED display.
SMD Technology, **Viewing Angle**: 160°.

bi-colored LED (red green)		monochrome LED
Red : 245 mcd	Yellow	Blue : 625 mcd
Green : 780 mcd		White : 625 mcd

Key features

Perfectly silent, direct and accurate reading of time.
SMD bi-colour LED technology allows to change the display colour in red, green or yellow (optional white or blue).
The patented technology of the light guide provides a perfect regularity of the brightness and viewing angle at 160 °.
The front face of the LEDI ® is coated with an antiglare and anti-scratch film giving an extraordinary 60000 : 1 level of contrast.
An anodized aluminium case wall mount (screw lock), flush mount or bracket mount.
A **protection against over-voltage and industrial interference** via EMC filter.
An easy "plug and play" installation.
Its participation in the sustainable development life span over 20 years.
2 years warranty.

Remote management (with NTP synchronization)

Remote configuration and time setting via WEB interface.
Automatic time zone choice and daylight saving time change.
Supervision via HTTP, SNMP, Telnet. "GT Network Manager" (Windows® NT/XP/2000/Vista (32 bits)/ Windows 7).

Synchronization inputs

- Standalone TCXO quartz time base.
- DCF(EUROPE).
- GPS.
- Pulse 24V reversed parallel minute or serial reversed 1/2 minute pulses.
- AFNOR NFS 87500
- IRIG B : shall be specified on Purchase order.
- ASCII RS232, ASCII RS422/485.
- NTP Ethernet 10/100 BaseT automatic detection :RJ45.
- NTP POE (Power Over Ethernet).
- SMPTE.
- Wi-Fi (IEEE 802.11 a/b/g/n standard).
